NG Kütahya Seramik: Tasarımda Yenilik ve Teknoloji

1989'da kurulan **NG Kütahya Seramik**, 37 yıllık tecrübesi, 400 bin m²'yi aşan kapalı üretim alanı, tek komplekste yıllık 85 milyon m² kapasitesi ile porselen seramik sektörünün global oyuncularından biridir. İnovasyon, tasarım ve sürdürülebilirlik odaklı yaklaşımıyla durmaksızın geliştirmekte ve uluslararası pazardaki güçlü konumunu pekiştirmektedir.

NG Kütahya Seramik, kökleri altmış yılı aşkın bir girişimcilik deneyimine uzanan; üretim gücü, inovasyon ve uzun vadeli vizyon üzerine inşa edilmiş güçlü bir kurumsal kültürün parçasıdır. Güral ailesi tarafından zaman içinde geliştirilen bu miras; sanayi, porselen ve otelcilik alanlarına uzanan faaliyetleri kapsamakta ve tüm bu alanlarda kalite, tasarım ve hizmet mükemmeliyetine verilen ortak önemle şekillenmektedir. Farklı ebat, yüzey ve tasarım çeşitliliğiyle genişleyen ürün portföyü, mimari projelere modern ve esnek çözümler sunmakta; Türkiye genelindeki 300'ü aşkın iş ortağı ve 80'den fazla ülkeye ulaşan ihracat ağı ile markanın küresel erişimini güçlendirmektedir.

EPD ve GREENGUARD sertifikalı çevre dostu ürünlerimiz; hijyen ve insan sağlığına verdiğimiz önem doğrultusunda sunulan NSF sertifikalı çözümlerimizle desteklenmektedir.

Bugün NG Kütahya Seramik hem Türkiye'de hem de dünya çapındaki projelerde tercih edilerek porselen seramik endüstrisinin global arenadaki güçlü temsilcilerinden biri olarak konumlanmaktadır.

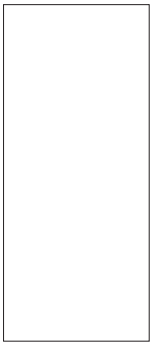

Sürdürülebilir Bir Gelecek İçin Üretiyoruz

Çevreye duyduğumuz saygı ve insana verdiğimiz değer doğrultusunda sürdürülebilirliği; çevresel, toplumsal ve ekonomik boyutlarıyla bütüncül bir yaklaşımla ele alıyor, geleceğe karşı taşıdığımız sorumluluğu tüm iş süreçlerimize entegre ediyoruz.

Sürdürülebilir enerji yatırımlarımız kapsamında, 28 MW üretim kapasitesine sahip çatı Güneş Enerjisi Santrali (GES) tesislerimiz ile üretimimizi kendi kaynaklarımızla destekliyor, enerji tüketimimizden kaynaklanan çevresel etkileri azaltıyoruz. Bu yatırımlar sayesinde karbon ayak izimizi önemli ölçüde düşürmeyi hedefliyor ve daha temiz bir gelecek için çalışmalarımızı aralıksız sürdürüyoruz.
